Princess Daphne
PLEASE DONT FEED THE DRAGON
Help!
PREPARE TO DIE!
JUST TRY IT LIZARD LIPS!
AND AWAY GOES DIRK DOWN THE DRAIN!
TAKE A DRAGON TO LUNCH
DRAGONS NEED LOVE TOO!

THE SECRETS OF
DRAGON'S LAIR

THE BOUNCING SKULLS

The skulls will come from the left and the right so you must jump forward. Next — in anticipation of the hand that will grab you — begin pushing the sword button. After the hand falls completely apart, jump forward again, push the sword button and exit through the unblocked doorway to one side.

THE SECRETS OF
DRAGON'S LAIR

THE TILTING FLOOR

As soon as you see some of the tiles in the floor fall away, pull the joystick back toward yourself. When Dirk's legs spread apart, push the joystick back to the forward position and then immediately begin pushing it to the left. Don't move forward — a large grate will come down if you do.

THE SECRETS OF
DRAGON'S LAIR

THE KNIGHT ON THE HORSE

This scene is easy since you realize that your sword is permanently stuck by the lightning and can't be used. Avoid the knight and the thorns by jumping to the left twice and by going to the right the last time. As you exit through the cave, the Knight will throw his sword at you. But don't worry — he misses.

THE SECRETS OF
DRAGON'S LAIR

THE TENTACLE

As soon as you see the tentacle coming from the ceiling, push the sword button. Next jump forward to the rack of weapons and then right as the sword comes straight again to the stairs. When the stairs become blocked, jump to the left to a low tile on the floor and then immediately jump forward and exit the door.
